

Environmental Policy

Introduction

Ham Baker operates a manufacturing site at Stoke-on-Trent producing penstock valves, fabricated pipe-work, and fittings for the Water, Sewerage, Maritime, Power and Allied Industries.

The company recognises that its processes and products have an impact upon the environment and it therefore committed to improve its performance.

A policy will be implemented within the framework of an environmental management system designed to meet the requirements of BS EN ISO 14001:2004.

Policy

To achieve this the Company strives to:

- Comply with applicable legal requirements and with other requirements to which the organisation subscribes that relate to its environmental aspects.
- Seek to reduce environmental impact and prevent pollution in the formulation of its products, the operation of its manufacturing processes and its services.
- Take account of concerns of interested parties such as regulators, shareholders, employees and the public.
- Set objectives and targets to drive continual improvement programmes and regularly review environmental performance to ensure success.
- Ensure that all employees are aware of this policy and trained in their environmental responsibilities.
- Policy will be reviewed annually or upon the introduction of new processes, procedures or raw materials.

Access to Policy

This Policy will be made available for inspection by interested parties (e.g. enforcement agencies, customers, suppliers and employees)
